Hon Elmer MacKay
Minister of Public Works
Room 509
Confederation Building

Dear Mr MacKay;

It is my understanding that Public Works is developing a set of criteria regarding accessibility to federal buildings. I am writing to inquire as to whether such criteria will include air quality and the needs of environmentally hyper-sensitive people, in the wake of the Human Rights Commission ruling that hyper-sensitive people are a class of disabled persons. When will the criteria come into effect?

Please let me know. I thank you. With best wishes,

Sincerely,

Charles Caccia
